

North American Trailer
UTAH ♦ CALIFORNIA

PRESS RELEASE

**North American Trailer Continues Expansion of California Operations
With Acquisition of S & G Truck Services, Sacramento**

North American Trailer LLC, Salt Lake City, Utah, has announced the asset acquisition of S & G Truck Services, Inc., West Sacramento, California. This acquisition is effective December 31, 2011. In May, 2011, North American Trailer (NAT) acquired Quality Fleet Repair, Fontana, California.

Scott Garringer, president of S & G Truck Services, said, "We welcome North American Trailer to our vibrant & growing market. The company brings unique operational resources to our work in northern California, and this venture will be one with significant benefits to our customers and to our marketplace. The merger of our experience and expertise will add tremendous strength to our established service business. We expect this merger to greatly enhance our ability to service large fleets and expand into wreck and roll-over repair on a much larger scale." Garringer has been in the transportation industry since 1976 and founded S & G in 1997. He will remain with the new company, directing the growth and expansion of its customer service operation as Operations Manager.

Dan Parquette, Branch Manager for NAT's new Sacramento operation, said that "I am pleased to pilot this important location and to work with Scott in this new venture. S & G Truck Services has a tremendous name here, and this alliance will further the support and meet the needs of any trailer owner throughout our territory of operation. Whether our customer is in container freight, refrigerated transport, heavy haul, building materials, equipment, refuse or construction equipment transportation, North American Trailer, well-known for its trailer sales, and rental business, is here to provide the highest levels of sales, service and support."

North American Trailer, headquartered in Salt Lake City, is the fastest growing independent trailer company in the Western United States. The company currently represents Hyundai, MAC, Fontaine, and Doonan Trailers.
